BOAT SHOW GEAR ROUND-UP

POWER DRESSING

Outboards are fairly pricey pieces of kit, but how does one go about protecting them (and their resale value) from the premature aging of salt and sun and the tyranny of seagulls? Here's how. Outboard Covers UK has introduced covers from Australia.

Built to fit any of the major makes and models, the splash cover protects your outboard whether it's running or not because its breathable Polysoft fabric allows the engine to ventilate, preventing condensation and corrosion. There's a

wide range of colours and for £10 per side, you can have your boat's name printed on the side. There's also a full cover for transportation and storage. Both come with a two-year guarantee.

Price: from £50
